

I AM CREW SAFETY.

CREW 110 | CREW 112 | CREW 113 | CREW 113

SAFETY WITH STYLE.

- aesthetic storage for fire extinguishers and first aid supplies
- Uniform design for stylish overall concepts

The storage of fire extinguishers is often a pragmatic solution rather than a design-oriented one. To ensure that the bright red, solid fire extinguishers do not disrupt the overall aesthetics of the room or are placed in an inaccessible, inconspicuous corner, the crew range has been expanded to include an attractive solution. Whether floor-mounted or mobile, a firm, secure stand is guaranteed in every case. Crew 110 also provides stylish storage for first aid supplies.

CREW 110

- First-aid kit
- External dimensions: H 360 W 360 D 170 mm
- Internal dimensions: H 353 W 353 D 158 mm
