

# I AM GARCIA 200/1 | 201.

## UNDERSTATED IN DESIGN, POWERFUL IN APPEARANCE.

- 9-ply plywood shell, concealed screw-fastened
- Various upholstery options
- Delicate, sturdy round tube frame
- Two armrest variants: open at the front or rear
- Chrome-plated or polyamide-coated

Designer Martin Mostböck developed garcia, a modern four-legged chair. Numerous product variations are created through different shell shapes and armrest types, while upholstery options increase seating comfort. Thanks to its simple design, garcia is the ideal conference chair, but is also suitable for concert halls and theatres. garcia is also available as a heavy-duty chair on request. The designer chair from Austria is receiving special attention at the Museum of Applied Arts in Vienna, where it has been part of the permanent exhibition for over 15 years.
