

DESIGN: ARCHITECT ADOLF KRISCHANITZ

# I AM COLLECTION. BENTWOOD.

SEATING FURNITURE

COLLECTION  
BENTWOOD

## BENTWOOD AS A DESIGN ELEMENT AND FUNCTIONAL FEATURE.

- Frames are made of solid beech wood
- The CONTRACT CHAIR was added to the collection of the MAK (Museum of Applied Arts, Vienna) in 2019.

The bentwood collection uses bentwood not only as a lightweight and minimalist base material, but also as a design element. The result is four types of furniture with distinctive characteristics and specific uses and meanings.
