

I AM 206 | 207.

SLEEK IN APPEARANCE. STRONG IN DETAIL.

- Model 206 with brackets made of square steel tubing, Model 207 made of round steel tubing
- Tabletop appears to float slightly above the frame
- For offices, conference rooms, seminar rooms or reception areas

Tables 206 and 207 are four-legged tables with bow legs made of square steel tubing [206] or round steel tubing [207] in a chrome-plated or powder-coated finish. The frame is stabilised by the continuous longitudinal frame profile. The table tops can be covered with HPL, making them scratch-resistant, lightfast and resistant to cigarette burns. Optionally, the tables can also be fitted with an elegant, 10 mm thin solid core panel.

SIZES

1,000 - 2,000 x 600 mm
1,000 - 2,000 x 700 mm
